DETAILED ACTION

Allowable Subject Matter

Claims 1,6,7,9,11,15,16 and 27 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art either taken singularly or in combination fails to disclose a thermal interface material comprising a binder material; a fusible filler within the binder material, the fusible filler is selected from the group of material as claimed; a plurality of non-fusible particle having a mean diameter of approximately 25 microns within the binder material; the non-fusible particles is selected from the group of material as claimed; and a volume percent of the fusible filler to non-fusible particles is in range of approximately 10-50 percent by volume of fusible filler. Kang's 413 and Kong'973 are the closest combination but fails to disclose the volume percent of such claimed fusible material and such claimed particle material and the mean diameter of the particle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
